

# ENVIRONMENTAL ASSESSMENT MINOR

---

## Major Code: MENV

Develop the skills and knowledge needed to conduct environmental assessments and reviews for permitting and other purposes. Students in this minor will learn how to collect and use geospatial data to create maps, identify plants by habitat type, and understand the environmental policies and laws that govern the review of projects that will impact the environment.

## Program Learning Outcomes

Upon successful completion of this minor students will be able to:

- Understand the policies and laws that govern environmental review.
- Collect and analyze geospatial data.
- Create detailed geospatial maps.
- Identify habitat types by the organisms of that environment.
- Identify and describe native and non-native species and their role in the environment.

## Curriculum Requirements

A minimum of 15 credits is required for completion of the minor. Students must be enrolled in a Bachelor's degree program in order to declare a minor.

Code	Title	Credits
Lower Division Course Requirement		
NATR 101	General Ecology	3
NATR 113	Intro toGlobal Positioning Sys	1
NATR 213	Basics Geospatial Technology	2
Select one of the following:		3
NATR 210	Dendrology	
NATR 250	Aquatic Ecology	
NATR 221	Invasive Species Management	
Upper Division Course Requirement		
ENRM 305	Environment Law Policy Justice	3
Select one of the following:		3-4
ENRM 302	Riparian Ecology & Wetland Mgt	
ENRM 303	Fundamentals Geospatial System	
<b>Total Credits</b>		<b>15-16</b>
